Good Afternoon,

There have been changes to providers in the Zenith (workers comp ins) Network. To find a provider in your area please copy and paste the link below into your web browser, select FIND BY ADDRESS, put the property address in the blanks and hit search. You will get a list of types of doctors to find. At this point select Urgent Care. Please print out the names and addresses that are displayed and attach them next to your Labor Law Posters. It is required that all employees have visible access to this information. If you have any questions, please do not hesitate to give me a call.
